As a dedicated and enthusiastic individual, I am eager to kickstart my career as a Frontend Developer. Armed with a strong foundation in HTML, CSS, and JavaScript, I am committed to learning and growing while contributing to innovative projects.

## WORK EXPERIENCE

### KPIT Technologies Ltd.

(02/2022 - 07/2022)

Intern

- Applied C language to design and enhance autonomous driving software.
- Acquired knowledge in Model-Based Design.
- Gained proficiency in AUTOSAR (AUTomotive Open System ARchitecture).
- Developed skills in Embedded System Design.

## PROJECTS

### Mail Box Client

Web Application

- Developed a feature-rich mailbox client using React.js, offering users a seamless experience for managing emails.
- The project included components for user authentication, inbox, sent items, and a home dashboard.
- Utilized Redux for state management and integrated Firebase for backend services.
